

Green eMotion Stakeholder Forum

Minutes of Meeting - Brussels – May 10 & 11, 2012

The Forum meeting in Brussels was focused around five workshops to enable a more engaged exchange of data and knowledge between the project and the stakeholders.

More than 80 participants attended the meeting over the two days. The first two workshops were run on day 1 and the next three on day 2. Day 2 workshops were repeated so that the participants could attend two out three workshops depending on their main areas of interest.

The full list of participants is available from the Green eMotion website.

Meeting Agenda

Day 1 - General Session and Workshops

Session I: Workshop - External Demonstration Regions – (Manel SANMARTI, IREC)

For interested parties who operate e-cars or charging infrastructure and are interested in **exchanging data** with the Green eMotion project and to participate in our data evaluation project Introduction.
At the end of this session, Marieke REIJALT made a presentation on behalf of HyER (the European Association for Hydrogen and fuel cells and Electro-mobility in European Regions).

Introduction: Welcome and House Keeping,
Masoud Bazargan welcomed the members and went through the agenda and the order of the meeting .

Masoud Bazargan

Welcome by the EU Commission
Hugues Van Honacker addressed the forum and explained the expectation from the project and the Forum by the EU.

Hugues Van Honacker

Project status update
Heike Barlag gave a brief update of the project and the summate of executive board meeting in Valladolid

Heike Barlag

Mission & Objectives of GeMS Forum

Masoud Bazargan

Masoud Bazargan reminded the Forum of its objectives by referring to the Mission Statement. He then gave a summary of the Forum activities in the past year pointing out the expectations and contributions of the members and the decisions taken to increase the level of engagement with the external stakeholders by announcing the appointment of Carlo Mol from the Flemish Living Lab as the Co-Chair of the Forum. (email: carlo.mol@livinglab-ev.be)

He also reiterated the non-requirement for signing an MoU to become a Forum member.

Session II: Presentation on some European EV initiatives

Five members, listed below, gave a 10-15 min presentation on their activities related to Green e-Motion. All the slides will be available on the website.

Roland Steinmetz (DOET),
Bastian Fischer (Oracle)
Peter Ekenger (Test Site Sweden),
Alfons Westgeest (EUROBAT),
Rastislav Lauko (My Energy RTI),

Session III: Workshop - Standards and Electro-mobility – European Interoperability (Luis de Prada CIDAUT)

Summary of GeM results from WP7, CEN/CENELEC Standards for electro-mobility, EV standards, Charging Infrastructure standards, Grid standards

Networking dinner

A networking dinner was organized to facilitate more interactions amongst the members (new and existing) and the project partners. This was hailed as a success.

Day 2 - Thematic workshop sessions running in parallel

Session I: eMobility recharging infrastructure: serving customers' needs and smart operation (Fainan HASSAN – ALSTOM, Senan McGRATH - ESB eCars)

Topics: interoperability, minimum requirements for charging spots, specifications for charging infrastructure, etc.

Session II: Policy, Visions and Strategies (Alexander Kihm - DLR)

Topics: how policy can support market up-take of e-mobility, what role cities and regions can play.

Session III: European market place for electro-mobility (Detlef SCHUMANN - IBM, Volker FRICKE – IBM)

Topics: ICT reference architecture for a market place system and ICT service use cases, insights into protocol specifications for ICT solutions

At the end of Day 2 a summary of all the workshops were presented by the workshop leaders.

Heike Barlag (project co-ordinator) gave the concluding remarks and acknowledged all contributions to the meeting including Eurelectric for their logistics and organisational support.

Masoud Bazargan informed the forum that the date of the next meeting will be communicated in due course and all the presentations would be uploaded on to the project website access to which should be requested from Norbert Vierheilig (e-mail: norbert.vierheilig@siemens.com)

Meeting closed.
